

Measuring your ring size the easy way

- Use a piece of string or thread and wrap it around the finger that you want to measure.
- Make sure the string wraps around completely around your finger.
- Do not wrap the thread too tightly or loosely around your finger.
- Unwrap the thread and use the chart below to find the size of your ring.
- If the length of the thread falls between 2 sizes then look for a ring in the bigger size.
- The circumference of the ring should be the length of your string.

Size	Circumference in mm
7	46.78
8	48.04
9	48.98
10	50.24
11	51.18
12	52.12
13	53.06
14	54.08
15	54.91
16	56.20
17	57.14
18	58.09
19	59.34
20	59.97
21	61.23
22	62.17
23	63.17
24	63.42
25	64.37
26	65.31
27	66.25
